Each reference in this Agreement to the "Bank", "The Farmers Bank", "we", "us", or "our" refers to The Farmers Bank, a Tennessee banking corporation, and each reference to "you" and "your" refers to each depositor, borrower, authorized signer, or authorized user for an account (as defined below) who is now or hereafter enrolled in any one or more of the Farmers Bank online banking services with respect to the account. Each time you use The Farmers Bank online banking service constitutes confirmation by you of your agreement to and understanding of the terms of this Agreement and any screens that appear on your computer when you access The Farmers Bank Web Site. This agreement will be effective as of the date of our acceptance of this Agreement as evidenced by our issuance of a Password (PIN) or Personal Security Code to you as provided in Section 3. Please read this Agreement carefully and keep it for future reference.

BROWSER SECURITY. The Farmers Bank Internet Banking transmits data Using SSL (Secure Socket Layer) technology that supports 128-bit key encryption. It is important to verify that a secure connection between your browser and the Internet Banking server has been established before transmitting any confidential account information over the Internet. This can be verified by an indicator on your web browser. Netscape Navigator has a key symbol that appears in the lower left corner of the screen. When the symbol appears "solid" transmitted data is being encrypted. When this symbol appears "broken", a secure session has not been established. Similarly, Microsoft Internet Explorer has a lock symbol that appears when data is being encrypted. When this symbol does not appear, a session is not secure.

HOST SECURITY. The web server does not connect directly to the Internet. It is buffered from the Internet through the use of a firewall. All access from outside the bank must go through this firewall, which screens the requests and allows only valid http traffic to reach the server. The Farmers Bank Internet Banking makes use of an ICSA certified firewall.

LINKS. Links to non-The Farmers Bank websites contained in this site are offered only as pointers to sources of information on subjects that may be of interest to users of The Farmers Bank's website, and The Farmers Bank is not responsible for the content of such sites as we have no control over what is displayed there. The Farmers Bank does not guarantee the authenticity of documents at such sites, and links to non-The Farmers Bank sites do not imply any endorsement of or responsibility for the ideas, opinions, information, products, or services offered at such sites. Once the Hardware has been properly connected to the telephone service, and any required Internet access has been established, you will be able to access The Farmers Bank online services through the PC banking service provider (the "Service Provider")

that will act as an interface between you and the Bank. You are and will remain solely responsible for the purchase, hook-up, installation, loading, operation and maintenance of the Hardware, the Software, the telephone service, and the Internet access service (if applicable) to your PC, and for all related costs. You are solely responsible for scanning the Hardware and the Software for computer viruses and other related problems before you use them.

You may change your PIN from time to time, as provided in the Software. It is recommended that you do not use your social security number, birthdays, names, or other codes that may be easy for others to determine as your PIN. No Bank employee will ever ask for your PIN, nor should you provide it to anyone unless you intend to allow that person access to your accounts. **YOU AGREE TO KEEP YOUR PIN CONFIDENTIAL. If you authorize another person to use your PIN, that person can use The Farmers Bank online to view any information or initiate any transaction on any of the accounts to the same extent as you, including viewing information or initiating transactions on accounts to which that person does not otherwise have access. As such, your sharing of your PIN is strongly discouraged by the Bank, and done at your sole risk and peril.

If a third party should gain access to your PIN, you alone are responsible for changing the PIN so as to deny the third party's access to your banking information. Given the electronic nature of these transactions, the Bank shall have no liability to you in the event a third party should gain access to your PIN through no fault of the Bank.

You should always exit The Farmers Bank online after you finish viewing your accounts. Never leave your computer unattended while accessing The Farmers Bank online. If you should, a third party may be able to access your accounts from your terminal, without ever needing to use your PIN.
