

What you Need to Know about Overdrafts and Overdraft Fees

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts. We have standard overdraft practices that come with your account.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Automatic bill payments

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- Everyday debit card transactions

We pay overdrafts at our discretion which means we do not guarantee that we will always authorize and pay any type of transactions. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if The Farmers Bank pays my overdraft?

Under our standard overdraft practices:

- We will charge you a fee of **\$35** each time we pay an overdraft.
- Also, if your account is overdrawn for 35 or more consecutive business days, we will charge an additional \$5 per business day for each consecutive business day the account remains overdrawn.
- We limit our imposition of the total fees we can charge you for overdrawing our account to 5 per business day (\$175.00)
- Transactions which cause an overdraft balance of \$10 or less will not be charged an Overdraft Item Fee
